

Dear New Patient,

Welcome to Godwin Family Practice! My staff and I would like to take this opportunity to welcome you and your family to our practice. We hope that this packet will serve to answer some of your questions and familiarize you with our office policies, procedures and philosophies. Our practice is committed to providing quality and compassionate care with a focus on education, health maintenance and wellness in a comfortable location and time. We believe each patient we touch is unique and deserves individualized care and respect. We are a team that is dedicated to going beyond what is expected to enhance your family's well being.

My philosophy on practicing medicine is that it is a partnership between the physician and the patient. As your physician, I am committed to providing you with the highest level of care I can provide. I will seek to accurately diagnose and treat your medical conditions, openly discuss treatment options with you and provide you with continuing education about your conditions. In addition, I will provide you with the latest recommendations for maintaining your health and answer any questions you may have at any time.

As a patient, I encourage you to take ownership of your health and to maintain a healthy, active lifestyle. I recommend compliance with your medical plan and encourage you to become educated about your medical conditions. I suggest you become an active participant in your healthcare and welcome any questions that you may have.

Thank you for placing your trust and confidence in us. We appreciate the opportunity to serve you and your family. We look forward to meeting you and becoming your hometown provider.

Sincerely yours,

Shea Godwin M.D. and staff
